## FOREWORD

The Basic Data Series is a biennial publication of data collections from Ohio's state-assisted colleges and universities. The series of tables presented are intended to be factual rather than interpretive, for use by public officials, institutional administrators and the Board of Regents in the development of higher education plans and programs.

The various tables are designed individually to deal with particular subjects and do not necessarily relate directly to a single theme or to other tables within the series. However, tables have been grouped under several major headings for convenience of reference:

Historical Data
Comparative Data
(benchmarks from outside the Ohio system)
Student Data
Staffing Data
Space Data
Financial Data

Most information reported has been compiled by the administration of the Board of Regents from cited sources or from the Uniform Information System in which Ohio public colleges and universities have been participating for several years. In many subject areas the tables represent digests of considerably more detailed data available in the office of the Board of Regents.

I wish to acknowledge the assistance of Patty Hill of our staff who compiled and reviewed the data for inclusion in this report as well as Duane Rogers for his continuing leadership in the development of this important data source. Requests for additional detail or for additional copies of this publication should be directed to the Regents' Executive Director, Budget and Resource Planning, (614) 466-5045.

Chancellor

*SUBSIDIES FOR THESE YEARS ARE NOT COMPARABLE WITH OTHER YEARS BECAUSE THEY DID NOT INCLUDE AMOUNTS REQUIRED TO BE PAID TO THE TEACHER'S RETIREMENT SYSTEM. IN ALL OTHER YEARS, AMOUNTS FOR THIS PURPOSE WERE INCLUDED IN STATE SUBSIDIES.

**STARTING IN 1969-70 NON-RESIDENT UNDERGRADUATES WERE SUPPORTED AT A REDUCED RATE OF STATE SUBSIDY. FOR THIS COMPARISON, APPROPRIATIONS FOR FULL-TIME-EQUIVALENT STUDENTS INCLUDES NON-RESIDENT UNDERGRADUATES.

(a) This total column should not be used as a comparison for determining space needs since this is affected by the amount of residential space provided by an institution, the graduate programs each institution has (e.g. medical school), and the amount of construction underway which is not reflected in these figures.

* Less than 1 NASF per FTE

** The day FTE figure was computed by using the ratio of the weekly student day contact hours (WSCH) to the total WSCH as a percentage to the total FTE.
